Professional Summary

Full Stack Software Engineer with hands-on experience across the stack – ASP.NET Core MVC, Entity Framework Core, and RESTful API/microservices backend development, along with front-end work spanning Razor views, HTML5, CSS, and JavaScript, as well as React and jQuery. Comfortable with system architecture design, Clean Architecture and CQRS patterns, performance optimization, and debugging. Focused on translating complex business logic into scalable, well-documented software across cross-functional teams.

Core Skills: C#, ASP.NET Core, Entity Framework Core, RESTful APIs, Microservices, Razor Views, HTML5, CSS, JavaScript, jQuery, React, SignalR, Redis, Docker, RabbitMQ, SQL Server, LINQ, T-SQL, Clean Architecture, CQRS, Git, CI/CD

Work Experience

Junior Software Engineer – Akijbashir Group Company 4 March 2025 – Present

- Automated import cost reporting end-to-end (ASP.NET Core MVC, EF Core), building the full front end with Razor views, HTML5, CSS, and JavaScript; cut report generation time from **20–25 days** (manual) to under **2 seconds**, and consolidated import document collection into a single-click workflow (previously 1+ day)
- Designed and built an Import Tracking Graph/Tree module giving real-time, end-to-end shipment visibility from PO initiation to closure, enabling Factory teams to monitor item-level status live
- Optimized backend using LINQ and T-SQL stored procedures with a repository pattern and full transaction management across **50+** domain models; resolved data-integrity bugs to keep financial processing reliable company-wide

Software Engineer Intern – Astha IT 20 Dec 2025 – 5 Mar 2026

- Built RESTful APIs and microservices with ASP.NET Core and EF Core using Clean Architecture and CQRS patterns for scalable, maintainable services
- Implemented real-time features with SignalR and cut API response latency by adding Redis caching across high-traffic endpoints
- Containerized services with Docker and integrated RabbitMQ for asynchronous messaging; wrote unit tests and maintained CI/CD pipelines for automated deployment

Technical Skills

- *Languages & Frameworks:* C#, .NET Core/Framework, ASP.NET Core, Razor Views, Java, Python, JavaScript, HTML5, CSS, jQuery, React, C++, Go, RESTful APIs
- *Databases & Architecture:* SQL Server, MySQL, MongoDB, Entity Framework Core, LINQ, T-SQL, Clean Architecture, CQRS, Repository Pattern
- *Tools & Platforms:* AWS, Docker, CI/CD, Redis, SignalR, RabbitMQ, Git/GitHub, Visual Studio, VS Code, Android

Education

University of Rajshahi 21 Jan 2020 – 11 Dec 2025

B.Sc. in Computer Science and Engineering CGPA: 3.34/4.0

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Architecture, Software Engineering, Artificial Intelligence

Programming Competitions & Problem Solving

- *Individual Ratings:* LeetCode **1781** (top 8.39%, 600+ solved) | CodeChef **1624** | Codeforces **1310** | AtCoder **7 Kyu**
- *Achievements:* Qualified for Round 2, Meta Hacker Cup 2023 | Ranked **128th**, SRBD Code Contest 2025
- *National Contests:* ICPC Asia Dhaka Regional (2021, 2025), ranked **177th** (2023); participated in 10+ onsite inter-university contests

Project Work

- Smart Retail Platform & AI Demand Forecasting | React, Laravel, MySQL, Deep Learning (2025)
  - Built a BiLSTM–CNN deep learning model with cross-attention achieving **12.31% MAPE** over 365-day demand forecasts, outperforming 8 ML baselines
  - Designed a multi-tenant SaaS POS system with real-time inventory sync, serving **450+** businesses and **BDT 200K+** in daily transactions
- My Salon App | Flutter, Firebase (2024)
  - Developed a salon management app with real-time booking, wait-time monitoring, and admin dashboards using Firebase
  - Managed the full SDLC – feasibility analysis, requirements gathering, system design, implementation, and documentation

Leadership & Volunteering

- *CSE RU Programming Club (2022–2025):* Organized **100+** algorithm and data structure training sessions; hosted **70+** contests on Vjudge platform
- *NHSPC-2025 Volunteer (CSE, RU):* Supported technical operations and contestant coordination for a national-level programming contest
